Application/Control Number: 09/964,587

Art Unit: 1755

1. This Office action is in response to the amendment filed 7/15/04 and refers to the first Office action mailed 3/15/04.

- 2. The objections and rejections of the previous Office action are withdrawn due to the cancellation of the original claims and introduction of new claims which extensively amend said original claims. However, c.f. below for new grounds of rejection necessitated by said new claims.
- 3. Newly submitted claim 26 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the process of claim 26 can be practiced with another materially different catalyst than that of new claims 15-25.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 26 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

4. Claims 15-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each independent claim first recites that the ligand is multidentate, but then in the clause describing it says it is tridentate. These are not entirely consistent since tridentate requires a definite number of groups that bond to the metal, while multidentate implies any number above two groups bonding to the metal. Also, in each independent claim, L<sup>1</sup> is defined as being a nitrogen atom or a group 16 containing substituent. If these are the bare atoms, then the ligand is

Application/Control Number: 09/964,587

Art Unit: 1755

not electrically neutral, nor is the remaining metal fragment, and there are dangling valences on the ligand's  $L^1$  groups.

Further in claim 15, 1. 13, delete "and" at the end of the line.

Further in claim 16, l. 15, make "R1" read --R<sup>1</sup>--.

Further in claim 18, 1. 7 from the end, "equals to" is poor grammar and should be corrected by deleting "to".

In claim 24, last line,"to neutralize the formal oxidation state of Z" is awkward; clearer would be --making  $ZX_h$  electrically neutral--.

- 5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 6. Claims 15-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mimura in view of Wu I as cited in the previous Office action.

Mimura discloses a transition metal compound of the present claims (col. 2, 1. 25-50; col. 3, 1. 1-37) as well as the combination with amines, amides, or main group metal alkyl compounds (col. 9, 1. 57 to col. 11, 1. 34).

Mimura lacks disclosure of the presence of an alumoxane cocatalyst.

However, Wu I teaches that with similar transition metal catalyst compounds, alumoxanes are conventional cocatalysts (col. 2, 1. 1-10; col. 2, 1. 64 to col. 3, 1. 62, especially 1. 4-5).

It would have been obvious to one of ordinary skill in the art to apply the teaching of Wu

I to the disclosure of Mimura with a reasonable expectation of obtaining a highly-useful

Art Unit: 1755

polymerization catalyst with the expected benefit of the catalyst being capable of using a widely-available commercial cocatalyst.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Pasterczyk whose telephone number is 571-272-1375. The examiner can normally be reached on M-F from 9 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell, can be reached at 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
